RES TARIFF: RENEWABLE ENERGY STANDARD ADJUSTOR MECHANISM

Applies to: The Morenci Water and Electric Company Service Area  
Greenlee and Graham County, Arizona

MWE's Renewable Energy Standard Adjustor Mechanism ("RESAM") – which replaces the Renewable Energy Standard Surcharge ("RESS") originally established in Decision No. 70303 (April 24, 2008) and most recently approved in Decision No. 74864 (December 18, 2014) – applies to all retail electric service. All provisions of the customer's current applicable rate schedule will apply in addition to this surcharge. MWE will evaluate – from time to time – its program funding requirements. If necessary, the RESAM may be increased if it becomes apparent that more funding is needed for MWE to meet the standards contained within the REST Rules in future years. The Commission must approve any increases to the RESAM. Any change to the RESS amounts will be applied in billing cycle beginning in the month following Commission approval and will not be prorated. The RESAM rates and charges below are in accordance with the Commission Decision No. 74864.

Adjustor:

An RESAM of \$0.004 per kWh, but capped as follows:

Residential Customers:	\$1.05 per month per service
Non-residential Customers:	\$39.00 per month per service
Non-residential Customers with demand of 3 MW per month for three consecutive months:	\$500.00 per month per service

The RESAM will be shown as a separate item on customer bills. The RESAM is in accordance with the REST Rules, A.A.C. R14-2-1801 through R14-2-1816, which was approved by the Commission in Decision No. 69127 (November 14, 2006).

Effective: January 1, 2015
