RECEIVED
AZ CORP COMMISSION
DOCKET CONTROL

Dear Chairman and Commissioners,

2014 NOV 18 PM 4:42

My name is Teresa Fritton and I am both a customer of Tucson Electric Power and an educator in a Tucson school. I am writing to urge you to oppose the elimination of Arizona's Energy Efficiency Standards and any reopening of Arizona's Energy Efficiency Rules. These standards work to lower utility bills for my neighbors and I and also help make Arizona an affordable place to live and work.

Furthermore, as an educator, I truly believe elimination of these standards would be irresponsible at best, and devastating in a worst case scenario. When discussing energy usage in this country, and more specifically, in a classroom, it is vital that there be a focus on conservation and increased efficiency. To eliminate either of these concepts from curriculum being taught in Tucson area classrooms sends the wrong message to the students about personal responsibility and being honorable stewards to the environment as well as future generations.

I am confident you will do the right thing for Arizona and our state's economy. I respectfully urge you to continue to support the Energy Efficiency Standards adopted in 2010.

Thank you,

Teresa Fritton, MEd
