RE: APS SOLAR DISCRIMINATION Appeal

2015 JAN 21 PM 4: 23

ACC Commissioners, Director Olea & Mr. LeSueur

Arizona Corporation Commission
DOCKETED

Dear Commissioners,

JAN 21 2015

I received this email note from Warren Woodward today:

DOCKETED BY 

"Needing SMs to manage electricity going on to the grid is just another APS lie. Florida Power & Light (FP&L) has 4.5M customers (compared to APS's 1.1). They allow solar customers to refuse a SM and give them a bi-directional analog (one meter, not two). Of course they pay an extortion fee but they do get an analog."

I phoned FP&L today. I received a prompt return phone call from FP&L technical support to verify the original information from customer service. **FP&L offers an analog bidirectional meter to measure output from solar production and offers a completely analog system for solar customers.** They do not discriminate against their solar customers.

Since I own my own solar system, I can have my system professionally removed and installed in FP&L territory and be on a completely analog solar system. FP&L has a one time set up fee and a monthly charge for that service.

The important aspect is that FP&L does not discriminate against its solar customers and offers its customers **freedom of choice.**

Respectfully submitted,

Patricia Christensen Ferre
