RE: Request for 30 Day Extension

Dear Chairman Bitter Smith,

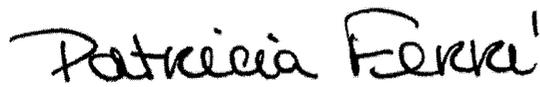

Relating to Staff Meeting, January 22, 2015 Agenda Item 5, I request a 30 Day Extension in order that the public interest may be served in resolving issues such as those listed below relative to APS Schedule 17.

**Chairman Bitter Smith & Teresa Tenbrink**, post today.  
Includes the 'Reason W' email issues that need answers promised by Chairman Stump (pending since 12/12/2014 Open Meeting).

**freedom of choice**, post today.  
RE: APS SOLAR DISCRIMINATION Appeal Includes information that Florida Power & Light (FP&L) is already doing what APS thought was not possible in December. There are options that do not include breaking our Arizona statutes. This is one example. There may be others. Northeast, has also been mentioned.

**Sedona Smart Meter Awareness Memorandum**, post today.  
by Nancy Baer & Monnie Ramsell, has some excellent points for all of us to consider. It is in everyone's interest to have a less abrasive and more user friendly document.

Thank you for your kind attention to this matter.
