Customer sent the following -

DOCKETED BY

I am completely opposed to this unconscionable proposed approximate 40% rate increase. In fact, I would expect the rates to be dropping-not increasing- as the number of house built at Quail Creek continue to rise yearly.

There were around 300 when I moved here in early 2003. There are now somewhere around 2000. The cost per unit for water should be decreasing, not increasing.

I see this as simply another ploy by the developer to further increase profit margins with little or no regard to effective cost management for the residents.
