Customer sent the following -

I am strongly OPPOSED to the SRP Route from N1-N2-N3.

I love my home/neighborhood and purchased my home years ago for the premium lot greenbelt and sunset views. The nearby greenbelts which are next to the railroad tracks, are used for children's sporting activities including soccer and baseball/t-ball practices.

- Routing the 230KV lines between Riggs Rd and Hunt Hwy along the railroad tracks will ruin our beautiful views, create safety concerns for the children and adults using the areas next to the route.

- The SRP Preferred routing N1-N2-N3 will result in lower home prices in a community where homes were selectively purchased for the views at a premium price.

The routing should not go through N2-N3 but should INSTEAD be routed either underground or through the RAILROAD TO ARIZONA ALTERNATE ROUTE (N2-N4-N5) where the impact is reduced due to less homes that directly face the route and no children play areas directly next to the route.
