RE: Docket Number L-00000B-15-0059-00170

To The Arizona Corporation Commission Chairman and Commissioners,

The Embarcadero Home Owner's Association (HOA) represents 66 homes along Ocotillo Road in South Chandler. The Embarcadero HOA encourages the ACC to **confirm** the SRP and Line-Siting Committee proposals as per docket **L-00000B-15-0059-00170**. Over the last two years members of our community have been involved in SRP's extensive public communication process regarding Ocotillo Roads and Dobson Roads. We have voiced opposition to the placement of high voltage power lines near our community. Ocotillo Road was eliminated from consideration Jun 2013 and its curved structures were sited as one of its primary reasons. Our community supports the GRIC route and the subsequent north-south route along the railroad tracks, already an existing right of way. The recommended North-South route affects the fewest number of private residences and has many areas of commercial development. Embarcadero HOA strongly opposes any transmission lines route down Ocotillo Road whether buried or aboveground. It is in the best interests of our homeowners that the proposed route be approved and under NO circumstances should high voltage power lines run down Ocotillo Road. We respectfully request that the commission **CONFIRM** the CEC filing issued by the 9-0 line siting committee. We thank the members of the Commission for their time.

Sincerely,

Gina Callozzo
