Re: **Support for GRIC route for Price Road Corridor's 230kV powerline**

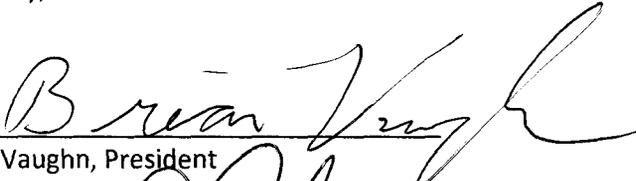

We are the officers and Board members of the Comanche Heights Homeowner Association (HOA). Our community, which is also called Talanté, is located in Chandler along Germann Road, just west of Alma School Road. Our community of 61 families fully supports SRP's plan to place 230kV poles and lines along the GRIC route for the Price Road Corridor project.

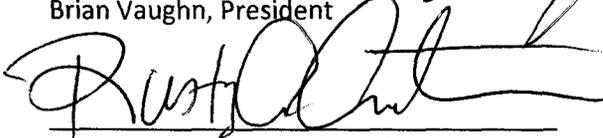

We are requesting that the members of the ACC **vote YES on the current proposed route** that SRP has filed (~~Docket # 15-000008-15-0059-00170~~). An ACC approval of the GRIC route would be consistent with a pattern seen throughout Arizona of adding 230kV lines to existing rights-of-way along railroad tracks, canals and undeveloped land. Our community has been actively involved in SRP's public outreach program since July of 2013, and we are pleased they listened to our homeowners and found a route that affects the fewest number of Chandler residents. Acting in the best interest of our residents in Comanche Heights, the Board asks the ACC to confirm the proposed route for the Price Road Corridor project.

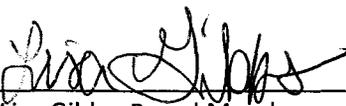

Under no circumstances should Germann Road be considered as a proposed route for the 230kV Price Road corridor project.

Our community joins with SRP, GRIC and the City of Chandler to officially and enthusiastically support ACC approval of the Price Road Corridor GRIC route.

Sincerely,

 Brian Vaughn, President

 Rusty Austerman, Secretary/Treasurer

 Lisa Gibbs, Board Member
