Re: Docket E-01933A-15-0100

Chairwoman Susan Bitter Smith
Arizona Corporation Commissioner

Dear Ms. Bitter Smith,

I am writing in regard to the above-named docket, Tucson Electric Power Company's request for a new net-metering tariff and partial waiver of the Commission's rules regarding residential solar power installations. As a resident of Pima County, I am a customer of TEP and have a direct interest in this case.

The proposed rule change is likely to have a substantial **negative impact** on the solar power industry in Arizona. At the same time, the proposal by TEP appears to **disadvantage Arizonans** who plan to install solar electric generation in the future. These likely negative impacts are serious and need to be given full consideration in any decision by the Commission, in the context of the **whole picture of TEP's rate structure**.

I therefore urge you to **vote against implementing TEP's proposal** in the upcoming special hearing. Instead, the Commission should consider TEP's request regarding residential solar installations in the context of a **regular rate case**, not in an isolated hearing.

Thank you for considering my concerns in this matter.

Yours sincerely,

John H. Bieging

Arizona Corporation Commission
