Dear Commissioner Forese,

I just added solar to my home . It is a significant cost investment. I also want to contribute to saving energy. If APS is allowed to increase or add a fee for solar then the investment is lost. There premise is not based on facts . The will not incurs more costs or have to pass costs onto other customers they will be saving cost of new infrastructure . The electric bill already has a ton off fees for line charges. Bill charges meter reading,taxes. The generation of electricity is a small part of the bill. The electric companies have a false argument make them show real numbers on why they need to raise rate for solar. It's a thinly veiled argument the real reason is solar is compitition and they want to kill it or make money from it.

Sincerely,

William Riera
