AZ CORP COMMISSION  
DOCKET CONTROL

**RE: Please reject increased solar fee! Docket #E-01345A-13-0248**

Dear Arizona Corporation Commission,

Please reject the APS proposal to raise the monthly fee for customers who install solar rooftop systems.

I am an Arizona Public Service (APS) ratepayer and I strongly oppose the utilities proposal to penalize solar rooftop customers.

Last year, Arizona Public Service (APS) initiated a direct attack on rooftop solar by proposing a huge penalty – \$50-100 per month – on new solar installations. The Commission wisely rejected that proposal but did approve a \$5 per month penalty.

Now, APS is back, asking for a four-fold increase to the rooftop solar penalty, increasing it from \$5 per month to \$21 per month. APS argues that ratepayers who install solar are not paying their share of fixed costs (construction of power plants, transmission lines, and associated infrastructure). This ignores all of the benefits that solar customers provide to the grid and to our communities, including less water use, less pollution, and less need for additional power plants and other infrastructure.

Utility customers who install rooftop solar don't just save grid electricity. Solar customers add reliability to the grid by reducing vulnerability to unplanned outages at power plants. Plus, they add energy during the day, when demand is high and when it is more expensive for utilities to generate or buy electricity. But, unlike the utilities, they do not pass on either fixed or operating costs.

Arizona has some of the best opportunities for solar in the country. We are already experiencing the negative impacts of global climate disruption – higher temperatures, extended drought, more extreme weather, larger and more intense forest fires. It makes sense for Arizona and Arizona's utilities to invest in low-carbon solar energy and energy efficiency to reduce carbon pollution.

There has been significant discussion about the need to address the issue of the costs and benefits of solar in a rate case. I agree that this is the appropriate procedure for considering this, so more information on the benefits of solar can be part of the decision-making process.

Please reject the APS proposed penalty on solar and keep Arizona's solar on track.

Thank you for considering my comments.

Sincerely,

Dennis Alcock
