4.7.4 Inbound Toll-Free Number Service

A. General Description

Inbound Toll-Free Number Service is an 800/888 number service available for Customer use twenty-four (24) hours a day, seven (7) days a week. Service is terminated over standard Customer-provided switched access lines. Intrastate service is offered in conjunction with Interstate service.

B. Reservation of Toll-Free (i.e., 800/888) Numbers

The Company will make every effort to reserve toll-free vanity numbers on behalf of Customers, but makes no guarantee or warranty that the requested toll-free number(s) will be available or assigned to the Customer requesting the number.

C. Toll-Free (i.e., 800/888) Number Portability

If a Customer accumulates undisputed delinquent charges, the Company reserves the right not to honor that Customer's request for a change in service, including a request for Resp. Org. change, until such charges are paid in full.

The Customer does not retain rights in toll-free numbers which are shared with other Customers of the Company. Shared toll-free numbers are not portable.

5.0 Grandfathered Services For Customers of McLeodUSA Telecommunications Services, L.L.C. d/b/a PAETEC Business Services Transferred to Talk America Services, LLC

(N)

Services listed in this Section 5.0 are available to former residential Customers of McLeodUSA Telecommunications Services L.L.C. d/b/a PAETEC Business Services who were transferred to Talk America Services, LLC. These services are available only to existing Customers at existing locations. Any moves, additions or changes to service will require the Customer to choose a corresponding service from Section 3 of this tariff.

5.1 Description of Services Offered

5.1.1 Local Service

A. Local Service Packages

The standard elements of local line packages consist of local dial tone and unlimited local calling unless otherwise noted in a Service specific description. Mandatory extended area service ("EAS") is provided where applicable for the prices set forth in the Rate Tables. Customers with multiple lines at a single location may purchase different Packages for each telephone line at a particular location. Residential Customers shall select a long distance package of anytime minutes for each location, which shall be shared by all lines serving that Customer location.

(N)

5.1 Description of Services Offered, (Cont'd.)

5.1.1 Local Service, (Cont'd.)

B. Description of Features Included In Certain Local Service Packages

Some features included in certain Local Service Packages may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. The Company will provide the most feature rich version of a feature in the bundled Local Service package that is available in a given market depending on network availability or configuration.

Anonymous Call Rejection

Allows customer to automatically reject all calls that have been marked anonymous by the calling party. The call is routed to a denial announcement and subsequently terminated.

Blocking Services.

Blocking Services prevent certain call types from being completed. Blocking service examples include blocking outgoing 10XXX1+ or 900 or 976 calls.

Call Forwarding Busy/Don't Answer/Variable

Call forwarding is the ability to forward an incoming call to a preselected station if the called station is unable to receive the call. "Call forwarding busy" will forward the call if the called station is in use; "call forwarding don't answer" will forward the call after a predetermined number of rings; "call forwarding variable" will forward the call regardless of the status of the called station.

Call Block

Allows customer to block incoming calls from up to a maximum of fifteen telephone numbers.

B. Description of Features Included In Certain Local Service Packages (Cont'd.)

Call Trace

Permits the tracing of the last call received and holds the results for later use by an authorized law enforcement agency. Results of call trace will be provided only to appropriate law enforcement personnel, and not to the customer.

Call Transfer

The ability to forward a call in progress to another station.

Call Transfer Disconnect

Call Transfer Disconnect is the ability to transfer of calls to another line, disconnecting that call so that it frees up the original line.

Call Waiting

Call waiting is the ability of the called station to generate a tone when the called station is in use to alert the user that another call is waiting to connect with the called station.

Call Waiting ID

Call waiting ID is the ability to identify the party calling when on another call.

5.1.1 Local Service, (Cont'd.)

B. Description of Features Included In Certain Local Service Packages (Cont'd.)

Caller ID Blocking

Provides a permanent indicator on a customer's line. Once the block is established on the customer's line, the private status can be deactivated by the customer by dialing a series of number before each call, to change the indicator from private to public. This one call unblock allows the name and number to be sent for that one call only.

Customers who choose per line blocking for the first time will not be charged the nonrecurring charge. New customers to the Caller ID serving area will be provided the same option. A customer requesting per line blocking will pay a nonrecurring charge for re-establishing line blocking.

The standard dialing pattern for per-call Called ID Blocking is *67 (1167 from a rotary telephone). The standard dialing pattern for a per-call unblocking is *82 (1182 from a rotary telephone).

Caller Identification

Allows for the automatic delivery of a calling party's name, telephone number (including non-published and non-listed telephone numbers) or both to the called customer. The number is displayed on customer provided equipment. The Company will provide the most feature rich version of caller identification in the bundled Local Service package available in a given market depending on network availability or configuration.

Repeat Dialing

Allows a customer to dial a code that will cause the feature to automatically redial the last number the customer dialed. If the called number is busy, the feature will redial the called number for a limited period of time. A distinctive ring alerts the customer when the called number becomes available. This service is available on a usage or subscription basis.

B. Description of Features Included In Certain Local Service Packages (Cont'd.)

Hunting

Hunting is the ability to forward an incoming call to the next number in a hunting group if the called number is busy.

Circular Hunt is an option of Hunting service that allows for hunting to start at the dialed number and continues in ascending order to the last number in the hunt group. Hunting then proceeds to the first number of the hunt group and continues through the group until an idle line is reached or the number just preceding the dialed number is reached. The rates and charges for Circular Hunt are in addition to the rates and charges for Hunting Service.

Preferential Hunt is an option of Hunting service that allows for calls to a specific number (other than the first number) within a hunt group to hunt over a unique sequence of lines within the hunt group. The Preferential Hunt sequence is different than that encountered when a caller dials the first telephone number in a hunt group.

Call Return

The customer does not have to know the number of the calling party. If the calling party's number is blocked by the calling party, the service will not return the call.

No Solicitation

Allows a customer to deter sales and telemarketing calls received by the customer. This is accomplished via a recorded message which informs the caller that the customer does not accept telephone solicitations, and asks solicitors to hang up and to place the called party on the solicitors "do-not-call" list. No Solicitation automatically screens calls between the hours of 8:00 A.M. until 9:00 P.M. daily. A caller may press one, or stay on the line to complete the call connection.

5.1.1 Local Service, (Cont'd.)

B. Description of Features Included In Certain Local Service Packages (Cont'd.)

Priority Call

Provides the end user with a distinctive ring when called from pre-selected telephone numbers. Calls other than from the selected numbers are received with a standard ring pattern. Toll Free, International and 900 numbers are not programmable with Priority Call.

Remote Access to Call Forward

This feature allows a user at a "remote" location to activate/deactivate the call forwarding feature. The user gains remote access to the call forwarding feature from a touch tone phone at a remote location. The RACF feature uses an announcement system to provide interactive voice message prompting, which allows customers to verify the forwarded-to directory number. Changes are accomplished by remotely calling an access number, entering the appropriate line and PIN information when prompted to do so, and making any desired changes.

Speed Calling

Permits placing calls to 8 or 30 telephone numbers dialing an abbreviated code.

Three-Way Calling

The ability to add a third line to an established conversation.

Toll Restriction

Toll Restriction provides for exchange access lines to be restricted from dialing billable toll calls. Attempted violation of the restrictions are routed to an announcement.

C. Directories

1. Listing Service

One listing, the Primary Listing, is provided without charge for each customer location. Where two or more exchange lines are served on a hunting service basis, only one Primary Listing for the group will be provided.

2. Directory Distribution

One local exchange directory will be provided to a customer for each customer location at the time directories are distributed by the incumbent local exchange carrier.

D. PRI T-1 Service

PRI T-1 (Primary Rate Interface) T-1 Service provides the customer with a direct digital connection via switched access to one or more private or public services. PRI T-1 Service is an enhanced T-1 service that allows the customer Integrated Services Digital network (ISDN) bandwidth that facilitates end-to-end digital connectivity to support a variety of services. PRI T-1 Service is 23 B channels each being a full 64,000 bps. One channel is a D channel to allow for signaling information to be passed. The service is utilized to connect ISDN compatible equipment at the customer premises to a suitably equipped Company node.

E. Calling Card

A postpaid calling card issued by the Company which allows Subscribers and/or Users to make telephone calls and charge the calls to a postpaid account. Calls charged to a Carrier-issued postpaid Calling Card will appear on the Subscriber's regular monthly bill.

5.1.1 Local Service. (Cont'd.)

F. Directory Assistance

Nature of Service

Directory Assistance (DA) Service is defined as furnishing aid in obtaining telephone numbers.

Availability

DA is available to all Customers.

Maximum Number of Requests Per Call

Two (2) requests for a telephone number will be accepted per call to the DA operator. A telephone number that is not listed in the DA records will not be available to the Customer.

Operator Limitations

The Directory Assistance operator will not transfer, forward or redial a Customer's call to any other location for any purpose other than provision of DA service.

Persons and Locations Exempt from All DA Charges

Any Customer who is visually, physically or mentally handicapped in a way that makes the Customer unable to utilize a telephone directory shall be exempt from charges for DA. The Customer must provide the Company with certification of this condition. Certification from a doctor, psychologist, psychiatrist, county or state social service agency, or similar person or agency will be acceptable. The exemption is effective prospectively and also retroactively for the month prior to the presentation of the certificate to the Company.

5.1 Description of Services Offered, (Cont'd.)

5.1.2 Operator Services

Operator Services is the furnishing of services for the completion of calls by consumers and customers pre-subscribed to company made with the assistance of a company operator within the state including aggregator sites and locations. Aggregator sites include, but are not limited to hotels/motels, hospitals, business, military establishments; and locations of public, semi-public, or private pay telephones. Note: Charges for these services are exempt when requested by authorized emergency personnel. Customers may receive bills directly from other operator service providers whose services the customer may use.

Busy Line Verification Surcharge - Charge to end-user to verify whether a telephone line is in use or has trouble.

Busy Line Verification Interrupt Surcharge - Charge to end-user to verify whether a telephone line is in use, and then to interrupt the end-users current phone call.

Calling Card Surcharge - This charge applies when a 0+ or 0- call is charged to a valid calling card. In order to control fraud, the company may refuse to accept a card that it determines or suspects to be invalid.

Collect Surcharge - This charge applies when an end-user requests the operator to bill the charges to the called station or party which agrees to pay for all charges.

General Assistance Surcharge - Charge to end-user to obtain information such as time of day, day of the week, area codes, international country and/or city codes.

Operator Dialed Surcharge - In addition to the per minute usage rates, an operator dialed surcharge also applies to each type of call. This is a charge that is assessed to the customer for having the operator dial the called number for them.

(N)

5.1 Description of Services Offered, (Cont'd.)

5.1.2 Operator Services, (Cont'd.)

Person-to-Person Surcharge - Charge when the end-user specifies to the operator a particular party to be reached. If the original person, department, mobile station, extension, or office designated by the end-user is unavailable and the end-user requests or agrees to talk to any other party, the call is still charged as a Person-to-Person call.

Third Party - The end-user requests the operator to bill the charges for a call to a number other than that of the called or calling party. The party receiving the charges agrees to pay for all charges.

5.2 Remote Call Forwarding

Remote Call Forwarding (RCF) is a local exchange telecommunications service feature whereby all calls dialed to a telephone number equipped for RCF are automatically forwarded to another dialable exchange or 8XX Service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF Customer pays the applicable charges for the forwarded portion of the call. Remote Call Forwarding service is offered subject to availability of suitable facilities. The Company will not provide identification of the originating telephone number to the RCF Customer.

(N)

6.0 Grandfathered Services For Customers of Talk America Inc. d/b/a Cavalier Telephone d/b/a PAETEC Business Services to Talk America Services, LLC

(N)

Services listed in this Section 6.0 are available to former residential Customers of Talk America Inc. d/b/a Cavalier Telephone d/b/a PAETEC Business Services who were transferred to Talk America Services, LLC. These services are available only to existing Customers at existing locations. Any moves, additions or changes to service will require the Customer to choose a corresponding service from Section 3 of this tariff.

6.1 General

Service is offered to residential customers and is available from equal access originating end offices only.

6.2 Timing of Calls

6.2.1 Long distance usage charges are based on the actual usage of the Company's network. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection.

6.2.2 Minimum call duration and rounding of calls for measurement and billing purposes is specified for each product in this tariff.

6.2.3 Except for charges that use a special access line, when a call is established in one rate period and ends in another rate period, the rate in effect at the calling station applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.

(N)

6.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the Rate Centers associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the Rate Centers as defined by Telcordia in the following manner:

- Step 1 - Obtain the "V" and "H" coordinates for the Rate Center of the originating and the destination points.
- Step 2 - Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the difference between the "H" coordinates.
- Step 3 - Square the differences obtained in Step 2.
- Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating points of the call.

Formula:

$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

6.18 Pay Telephone Surcharge

The Public Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone. Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

7.0 Grandfathered Services For Customers of Windstream Communications, Inc. to Talk America Services, LLC

(N)

Services listed in this Section 7.0 are available to former residential Customers of Windstream Communications, Inc. who were transferred to Talk America Services, LLC. These services are available only to existing Customers at existing locations. Any moves, additions or changes to service will require the Customer to choose a corresponding service from Section 3 of this tariff.

7.1 Description of Services

The following Direct Dialed Intrastate Long Distance Message Telecommunications Services are available at the rates listed in 7.4:

Direct-Dialed LDMTS is a presubscribed switched access service, offering users outbound "1 plus" interexchange long distance telecommunications services from points originating and terminating throughout the State of Arizona. Access maybe provided by the Company, or the Customer may utilize local exchange Company access.

Residential Toll Free Service is a presubscribed switched access service, offering users inbound, toll free long distance telecommunications services from points originating and terminating within the State of Arizona. This service enables the caller to contact the Customer toll free, through the use of a special toll free number. Access may be provided by the Company, or the Customer may utilize local exchange Company access.

Calling Card Service enables subscribers to place calls from locations other than their presubscribed call locations. Subscribers are billed on a monthly basis at the Company's tariffed rates.

Directory Assistance is provided by Windstream Communications, Inc.'s underlying carrier to subscribers of record. The Customer may access the underlying carrier's Directory Assistance by dialing the area code plus 555-1212. The Customer will be billed for such service by Windstream Communications, Inc.

7.1 Description of Services, (Cont'd.)

Residential Account Code Service Residential Account Code Service is an optional service for direct dialed intrastate and/or interstate long distance calls that offers customers a way to track long distance usage. This Service allows customers the ability to have calls separated and displayed on their telephone bill. Account Code Service requires callers to enter a unique code for completion of a long distance call. The Company's network will authorize calls only if the unique code is entered. This service is offered where technically available.

7.2 Determination of Duration

- For Direct Dialed calls, chargeable time begins when the connection is established between the calling station and the desired telephone.
- Chargeable time ends when the connection is terminated.
- Chargeable time does not include the time lost because of faults or defects in the service.

7.3.2 For pricing plans that have Evening rates, the Evening rate applies to the holidays listed below unless a lower rate period is in effect. For pricing plans that have Off Peak Rates, the Off Peak rate applies to the holidays listed below. Holiday rates do not apply to flat rated plans unless otherwise specified.

7.3.3 The Evening rate applies to the holidays listed below unless a lower rate period is in effect.

- New Year's Day January 1
- Memorial Day
- Independence Day July 4
- Labor Day
- Thanksgiving Day
- Christmas Day December 25

7.3.4 Calculation of Billable Time for Service

The charge for each call is equal to the Company's applicable rate for the Initial Period of the call, plus the Company's applicable rate for each Additional Period of the duration of the call.

7.3.5 Initial Period

The initial period for Direct-Dialed calls and calling card calls is one (1) minute, or fraction thereof.

7.3.6 Additional Periods

Each additional period for Direct-Dialed calls and calling card calls is one (1) minute. Or Fraction thereof.
