--------------------------------	------------------------------------	---

Dear Utility Division,

Three utilities are trying to levy charges on solar customers outside of established procedures. Utilities shouldn't get special treatment to raise rates for solar. The fair process for discussing solar rates is in a rate case. All Commissioners, and APS, have stated that solar rates should be looked at in a rate case.

The Commission should stick to their word and not let utilities raise rates outside of the proper venue.

Sincerely,

Gerry [REDACTED]
