Dear Chair Commissioner Bitter Smith:

For the past two years, I have had the privilege to serve as the City of Chandler's liaison to both the community and Salt River Project as SRP began a process to site new 230 kv power lines through our City.

While this process has been challenging at times, we commend SRP for listening to us and our residents. They were extremely thorough in their community outreach efforts, and ultimately chose routes that will be the least impactful on our residents. We fully support their decision.

Speaking with hundreds of residents and SRP officials these many months has given me a strong insight as to the decision before you, and the routes presented are truly in the best interests of the region. Please call me anytime if you would like to discuss this further.

Sincerely,

Rick Heumann  
Chandler City Councilmember

Dear Chairperson Bitter Smith,  
I have written before but feel obligated once more.

I know there has been numerous public presentations and contact information shared with the community. At this point I have seen nothing that suggests a desire on the part of SRP to be other than concerned with what is in the best and least expensive route for them and what they can also use to address potential further development south and west of the Hunt Highway and Price Road. To suggest any concern for the home owners, primarily in the Sun Lakes community, is simply just appeasing them while moving in the only direction they want. The construction of these totally obtrusive power lines will be a totally inconsiderate abuse of what those who have retired to this area did so for. The other options in already developed manufacturing and retail areas plus a more reduced area of populous just doesn't make any sense except for financial positives for SRP.

Please do not approve SRP's request for the Price Road & Hunt Highway option.
