ORIGINAL

Customer sent the following -

I'm a Homeowner in PineLake Estates and I absolutely object to SRP installing 230KV above ground Power lines along the Railroad tracks from South from Ocotillo parallel to Arizona Avenue. Pinelake Estates has been an established upscale Waterfront community since 2002 and I have been a member of the community since 2004. If new Power lines need to be established, than why don't they go north along already existing 230kv lines? If new lines must go south, then they need to be buried alongside the Pinelake community. I have heard SRP state 8, 10, & 11 million a mile. It doesn't stop changing and I for one would love for SRP to finally display some actual facts instead of throwing ever changing numbers at us. Please do not allow SRP to treat South Chandler as they would a third World nation. This is not Rocket Science and the technology is there to bury the line. We are not in opposed to the lines we just want them buried. SRP should at the very least meet us half
