Company: Sulphur Springs Valley Electric Cooperative, Inc.

Division: Electric

Nature Of Opinion:

Docket Number: E-01575A-15-0127

Docket Position: Against

We are certain SSVEC will not be able to hoodwink the public or elected / appointed officials into allowing them to unfairly target and fee to death private production of renewable energy. SSVEC would have everyone believe their current agreement with independent energy producers is somehow "unfair," and that independent energy producers should not only pay to have SSVEC meter and utilize and sell and get green credits for independently produced power, but that anyone who independently produces power should continue to provide that power directly to SSVEC, pay SSVEC an additional \$50 per month for doing that, and that independently produced power should NOT be credited to the independent producer at the same rate SSVEC would otherwise charge for that same amount of power. Astonishing that this proposal by SSVEC could even be considered as valid, fair or feasible by this or any other regulatory body.
