Subject: from tiegang(need your help about the potential high power line near my home in south Chandler)

Dear Susan, Bob, Bob, Tom, Doug:

Sorry I do not know which e-mail address you are using so I sent it to all of them. sorry to make trouble.

From ACC website I can see you guys are really friendly and I think you could give me some help. I just moved from Cupertino, California to Chandler AZ half year ago and bought a new house two month ago in south Chandler AZ and surprised to see this happened, I mean a high power line will cross near my home. You know before I came to AZ the two things I knew which are attractive to me are:

- 1.the beautiful houses in south Chandler and
- 2.Intel

I never think that this two someday will have a conflict. I mean the high power line will pass my house in Chandler because Intel need power. I think people could figure out a way to make both side satisfied. and I think you could help us. Are there any pressures to make solution easy? is it because of money? Anyway it is not good for children, right? that is the first thing people should think. we do not want children got hurt because of money. Also I heard some people will not buy houses from our builder(DR Horton) because this potential built power line. They claimed sold 50 houses already and plan to build 100 more if people will buy it. that will make south Chandler looks better I think, now because no people come in the night is really dark around my house. We want more neighbor. so please help us.

Rick Heumann from Chandler City Council replied my e-mail and suggest me to get your help. (I wrote him letter yesterday about this problem). I think it is too late we should contact him earlier before the decision was sent out

UTILITY COMPLAINT FORM

from Chandler. We need communicate with each other earlier. I can feel all of Chandler government people are nice and they want to help us. They just did not hear our voice earlier.

Please let me know any things I can do to make things better. I do not want to argue for anything with anybody, but I must stand up for my daughter this time(her name is Catherine and she is 11 year now, she studied in Jacobson Elementary School and she got Principle award last month and she is the only who got this in her class for excellent math and English writing) . Otherwise in future she and her children will blame me.

hope to see you someday in future, and hope you can help us. best regards!

(against SRP high power line near my home Docket # L-00000B-15-0059-00170)

End of Complaint

Utilities' Response:

Investigator's Comments and Disposition:

I spoke with Ms. Tiegang, advised her that Commission staff had received her opinion via email concerning the SRP line sitting Docket # L-00000B-15-0059-00170). I would submit it to docket control to be placed in the docket.

I mentioned that the item would be heard next week May 12 and 13 in out next Open Meeting. She understood and would be here in person at 10:00 AM. CLOSED.
