AZ CORP COMMISSION DOCKET CONTROL

Sir my name is Julie Black. I live at 21537 W Cloud Rd. I have lived at this address for the past 10 years. On 12-16-14 and 1-20-15 I stood before you to voice my concerns regarding the requested amendment to the approved route of the Sun Valley to Morgan transmission line project. Doc. No L-00000D-08-0330-0138: I continue to have multiple unanswered questions regarding this matter.

I believe Arizona Public Service (APS) and the Arizona State Land Department (ASLD) have not acted with integrity regarding this matter on more than one occasion. They neglected to mention if the approved route is not amended it would render the private landing strip and the 8 million dollar residences with private hangers off 235th Avenue USELESS! It certainly raises a number of questions regarding the true reason for this requested amendment.

Sir I know you encouraged APS and the ASLD to work toward a compromise regarding this matter. Had APS and the ASLD been forth coming with this information I can't help but think that the proposed compromise would look much different with all involved parties sharing the burden of this project.

I believe what Mr. Richard Stuhan of APS stated in sworn testimony was "they" (plural) meaning the Cloud Rd. residents ALL CALLED HIM! Sir this is not a true statement. He was not required to provide any further information. NO NAMES! NO ADDRESSES! NO TELEPHONE NUMBERS! NOTHING!

I understand APS is required to notify all effected parties in such an action. As we canvassed our neighborhood it became very apparent this was not the case.

Sir I realize this information may or may not be of any benefit to you. Never the less I wanted you to

have it. I thank you again for your time and attention regarding this matter.

Sincerely

A handwritten signature in cursive script that reads "Julie Ann Black". The signature is written in black ink and is positioned below the word "Sincerely".
