Hello Arizona Corporate Commission.

I am writing to you as a registered Arizona voter and a person who believes in capitalism.

DOCKETED BY [Signature]

TEP's deadline is about keeping only one option for power. Monopolies are not what makes capitalism work, and they proved they are a proud monopoly with this deadline.

At this time, I do not have solar but many in my neighborhood do, and I think it is great because they exercised their choice. What TEP and other companies like them do not understand or get, is many homes can't even have solar, roofs are shaded, crazy roof lines, house faces the wrong way and many probably just do not have interest. TEP wants control, and as wise officials for the commission, I know you see through this aggressive tactic.

I clearly remember when the phone companies cried to you and others in the nation about cellular taking away the home land lines, you let us have cell phones, and I am grateful. I have both land and mobile. Ironically, the phone companies figured it out, they can make money in other areas. It is time for TEP and the others to wake up, help mother earth and find other ways to grow their revenue without stopping something so common sense as using the sun or wind to generate energy. Bottom line, we deserve to have a choice!

Best regards,

Shaughn Nelson  
Tucson, homeowner since 1992
