Payment for Service, (continued)

The Company shall make no refund of overpayment by the Customer unless the claim for such overpayment, together with proper evidence, is submitted within two years of the date of alleged overpayment. In calculating refunds, any applicable discounts shall be adjusted based upon the actual monthly usage after all credits and adjustments have been applied.

Duplicate Bill Charge

A Customer who requests a reprint of their monthly long distance bill that is older than six months and whose long distance charges are billed by an affiliated local exchange company will be assessed the monthly charge applied by the affiliated local exchange company.

Deposits

Each applicant for service may be required to establish credit. Any applicant whose credit has not been duly established may be required to make a deposit at the time of application to be held as a guarantee of payment of charges. In addition, an existing Customer may be required to make a deposit or increase a deposit currently held. The Company shall pay interest on deposits pursuant to applicable rules and regulations. The Company may set toll usage limitations on applicants for service and existing Customers whose financial condition cannot be verified or is otherwise unacceptable to Company. Any toll usage limits may be increased or decreased by the Company as it deems appropriate in light of changing conditions.

A deposit shall not exceed the estimated charges for two months service, plus installation, and shall be returned: 1) when an application for service has been canceled prior to the establishment of service; or 2) at the end of twelve (12) consecutive months of a satisfactory credit history; or 3) upon discontinuation of service. The Company shall apply the deposit against any outstanding balances due. If a credit balance exists after such application, the Company shall refund the balance to the Customer.

The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

Advance Payments

The Company reserves the right to require an advance payment from the Customer instead of or in addition to a security deposit. The advance payment shall be in an amount equal to or less than estimated installation charges plus two months' estimated billing.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)

3.2 Calculation of Distance

Usage charges for all mileage sensitive services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the applicable rate centers as defined by Telecordia (formerly Bellcore) and on file with the FCC in NECA Tariff No. 4, in the following manner:

(T)

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:
$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

SECTION 4 - MISCELLANEOUS SERVICES, (Cont'd.)**4.4 Operator Services**

Operator Services allow Customers and Consumers to place calls using operator assistance for call completion or billing. Service is available only for direct use by residential and business subscribers and may not be used or resold to provide payphone, hotel, transient, guest or other aggregator services. (N)

(N)

Usage charges and an appropriate service charge will be assessed on a per call basis, as stated in this tariff. For calls made using a telephone company card, acceptance of the card will be dependent upon the Company's ability to verify the card as valid. Only those cards accepted by the Company may be used for Operator Services. The Company reserves the right to verify acceptance of charge prior to billing charges to a third party number.

4.4.1 Operator services may be used by a Customer and by an Aggregator and their respective Consumers (i.e., patrons, guests, invitees or employees) to complete Operator Station, Person-to-Person, Collect, Third-Party, and/or Calling Card calls.

4.4.2 Charges for Operator Assisted Calls include two components: a usage-sensitive component and a fixed per-call service charge based upon the type of operator service provided.

4.4.3 The usage-sensitive portion of the charge for an Operator Assisted Call is set forth in Section 4.4.8 below.

4.4.4 The fixed per-call service charge portions of the charge for an Operator Assisted Call is set forth in Section 4.4.7.

4.4.5 The Company shall not bill the Customer for any surcharges or fees imposed by the Aggregator. With respect to charges imposed by the Aggregator for the use of the telephone, the Aggregator is responsible for charging a flat rate and for posting of the charge in plain view at each telephone.

4.4.6 Service may be suspended by the Company, without notice to the Customer or the Aggregator, by blocking traffic to certain countries, cities, or NPA-NXX exchanges, or individual telephone numbers, or by blocking calls using certain Customer Authorization Codes or Calling Cards, when the Company deems it necessary to take such action to prevent unlawful use of service. The Company shall restore service as soon as it can be provided without undue risk, and shall, upon request by the Customer affected, assign a new Authorization Code to replace the one that has been deactivated. The Company reserves the right to validate the credit worthiness of Customers through available Calling Card, called number, Third Party telephone number and room number verification procedures. Where a requested billing method cannot be validated, the Customer or Consumer may be required to provide an acceptable alternate billing method or the Company may refuse to place the call.
