SECTION 9 - AT&T DEDICATED ETHERNET SERVICE

(N)

9.5 GENERAL PROVISIONS (continued)

9.5.4 Special Construction

A. No License Granted

No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppel, with respect to any plant constructed or utilized under this Tariff.

B. Cancellation of Orders

Information regarding availability of suitable facilities for a service may not be known until after the order is placed with the Company or the underlying service provider, or after initial Special Construction charges have been identified and paid. The Customer may be notified that additional Special Construction charges apply to the order. No facilities construction will begin until the Customer has agreed in writing to pay the Special Construction charges initially identified. If Customer does not agree to pay the Special Construction charges, either upon the initial notification or upon being notified of any subsequent changes in the Special Construction charges, the order for the service giving rise to such Special Construction charges will be considered cancelled (and, where such service has been ordered for the express purpose of being connected to another Company Service, Customer may also cancel its order for such other Company Service). In such a case, the Company will not charge Customer a cancellation charge or early termination charge, unless the underlying service provider charges the Company a cancellation charge. If Customer does agree to pay the Special Construction charges and thereafter cancels the order for the service (other than as a result of being notified of subsequent changes to the Special Construction charges), a cancellation charge will apply, which shall include (in addition to any amounts otherwise payable on account of such cancellation) all non-recoverable costs incurred by the Company for the Special Construction.

SECTION 9 - AT&T DEDICATED ETHERNET SERVICE

(N)

9.7 ETHERNET PAYMENT PLAN (EPP)

9.7.1 EPP Eligibility

To subscribe to AT&T Dedicated Ethernet Service, the Customer must select an EPP term of either 12, 24, 36 or 60 months. The AT&T Dedicated Ethernet Service is not available to be subscribed to on a month-to-month basis.

9.7.2 Non-Recurring Installation Charges

Non-Recurring Installation Charges shown in the Price List section will be waived for Customers subscribing to new service under an EPP of 24 months or greater.

9.7.3 EPP Term

During the Customer's EPP term, Company-initiated recurring rate changes (i.e., rate increases or decreases) will be automatically applied to the Customer's EPP rates for the months remaining in the Customer's EPP term. However, at no time during the Customer's EPP term will rates exceed the Customer's initial EPP rates.

9.7.4 EPP Auto Renewal

Customers may subscribe to the EPP Auto Renewal option at any time prior to expiration of their EPP term plan. EPP Auto Renewal provides for a continuation of the rates under the EPP term the Customer last completed for additional consecutive 12-month periods, subject to termination as provided below.

For instance, a Customer that has subscribed to the EPP Auto Renewal option prior to completion of a 60 month EPP term will continue to receive the 60 month EPP rate during the 12-month extension period.

EPP Auto Renewal will continue to automatically extend the Customer's term every year for an additional 12-month period unless either party provides written notice of its intent not to renew at least 60 days prior to the expiration of the initial EPP term or any additional 12-month period.

An Administrative Charge is applicable when Customers add or remove the EPP Auto Renewal option, unless other changes for which an Administrative Charge is applicable are also being performed.

Termination Liability will apply below, for service disconnected during a 12-month extension period, based upon the number of months remaining in that 12-month extension period.
