To whom it may concern:

My name is Michaele Menghini. I am the President of Homestead Park Homeowners Association. Our community is located along Germann Road. The community of Homestead Park Homeowners Association fully supports the GRIC route for the 230kV high voltage power line placement of the Price Road Corridor project.

I am requesting that the members of the ACC vote YES on the current proposed route that SRP has recently filed, Docket # L-00000B-15-0059-00170. We believe this is the best route for all of South Chandler and GRIC. By approving SRP's preferred route the ACC will avoid setting a statewide precedence of allowing high voltage power lines to be built in existing, densely populated communities. The 230kV power lines do not belong on Germann Road, a built up, highly populated residential community. Voting to approve the GRIC route will benefit our neighbors and the Gila River Indian Community. The Allottees in the tribe have overwhelming approved the route.

Overall, this is a win-win situation for all involved; it will provide the least impact on densely populated private land while providing the economic and new technology benefits that the Gila River Indian Community Allottees voted for. Our community, Homestead Park Homeowners Association, along with SRP, GRIC, and the City of Chandler, support an approval of the Price Road Corridor GRIC route.

Sincerely,

Michaele Menghini  
Board President  
Homestead Park Homeowners Association
