RECEIVED

Hi,

I recently became a first time homeowner in "The Reserve at Fulton Ranch" subdivision, which is a little South of Ocotillo Road and Arizona Avenue. I have reviewed the current plan for the Price Road Corridor Project and I agree with the need for the project. However, I cannot support any of the three main alternative routes for the project. I personally believe that the three routes not only negatively affect me, but the majority of the homeowners in my subdivision that I call neighbors. All three alternatives are aesthetically displeasing, detrimental to my neighborhood's property value and/or pose a safety risk to the greater public. The current 230 KV power line runs eastward along Ocotillo Avenue to Gilbert Road. I understand that this will be more expensive, but what if the new line followed the Eastern Canal. I would love to share more of my opinions that exceed the character limit of this submission. I look forward to the future dialogue about this project.
