DOCKETED

DOCKET NO. L-00000B-15-0059-00170*

APR 09 2015

Christopher C. Tyk

Attention: Arizona Corporate Commission

My name is Christopher C. Tyk. I am the Vice President of the Home Owner's Association (HOA) of Stonefield HOA. Our community is located along Germann Road. The community of Stonefield fully supports the GRIC route for the 230kV high voltage power line placement of the Price Road Corridor project.

I am requesting that the members of the ACC vote YES on the current proposed route that SRP has recently filed, Docket# L-00000B-15-0059-00170. We believe this is the best route for all of South Chandler and GRIC. By approving SRP's preferred route the ACC will avoid setting a statewide precedence of allowing high voltage power lines to be built in existing, densely populated communities.

The 230kV power lines do not belong on Germann Road, a built up, highly populated residential community. Voting to approve the GRIC route will benefit our neighbors, the Gila River Indian Community. The Allottees in the tribe have overwhelming approved the route. Overall, this is a win-win situation for all involved; it will provide the least impact on densely populated private land while providing the economic and new technology benefits that the Gila River Indian Community Allottees voted for. Our community, Stonefield HOA, along with SRP, GRIC, and the City of Chandler, support an approval of the Price Road Corridor GRIC route.

Thanks,
End of Complaint

Jeffrey Breese

Chandler, AZ 85249

As a 6-year resident of Pinelake Estates in Chandler, I have deep concerns about the impact of utilizing the railroad tracks on the west side of the Pinelake Estates development to house above-ground high-voltage power lines to connect Schradar substation to the Price Road Corridor. As a business owner in Chandler, I am aware that the growth of our city requires some enhancements to be made. However, my residence is within a couple of hundred feet of the proposed above-ground lines. With two young children (ages 2 and 5) and a deep family history of brain, lung, and bone cancer, I am concerned with the impact on the health of myself and my family. Data provided by SRP at an open house at Hamilton High School detailed that my home is within a range that is expected to exceed the EPA's threshold for mG exposure. When we bought our home in 2009, it was with the intention of staying here for the rest of our lives, not because we wanted to get rich in owning it. Please reconsider.
