DOCKET COVER

Dear Utility Division,

Four of the five utilities are trying to levy charges on solar customers outside of established procedures. The fifth is trying to raise the rates an exorbitant amount which is taxing to us as solar and homeowners.

- Utilities shouldn't get rates special treatment to raise rates.
- The fair process for discussing solar rates is in a rate case. They are just trying to create an energy monopoly.
- All Commissioners, and APS, have stated that solar rates should be looked at in a rate case.

Which means that they are trying to bend rules to gain their domination of energy in the state • The Commission should stick to their word and not let utilities raise rates outside of the proper venue.

Sincerely,

Henry Harding
