3.8.2 Account Codes^{1,2}

(T)

- (A) Account codes are an optional feature associated with outbound long distance Service that provides the Customer the ability to track usage by requiring the caller enter a string of digits ("digit string"). Account codes enable the Customer to obtain call detail from the Company which is sorted and summarized based on digits entered by the caller
- (B) The account codes are available on a mandatory basis only when placing a call, the caller must enter an account code for the call to complete.
- (C) The length of the string digits available to a Customer is limited and the number of digits is based on whether the call originates at an On-Net or Off-Net location. The Company controls the length of the string digits. The caller will be allowed three (3) attempts to enter a valid account code before the call is terminated."
- (D) If the Customer subscribes to the validated feature, the caller must enter specific account codes in order to complete the call. If the Customer subscribes to the non-validated feature, the caller may enter any digits as an account code as long as the string is the designated number of digits in length.

¹This feature is no longer available to new Customers effective January 12, 2015. Additionally, concurrent with this change, the non-mandatory account code option is discontinued.

²Effective June 12 2015, no changes will be allowed to Account Code configurations. Existing customers may continue with current Account Code configurations until the Account Code billing feature is discontinued in its entirety by the Company.
