Re: Typos in Notice of Appeal, Decision # 75047 Posted May 19, 2015

Commissioners,

I did not notice that footnote #1 on page #2 did not completely print: the last portion was missing. The first two lines printed. The section in parenthesis did not and are in need of correction.

¹The power density at 100 meters (328 feet) from a Smart Meter is higher than the power density that triggered biological effects in 6 of

"the 67 studies. So even at the distance of a football field from the smart meter, the power density received may still be biologically significant. Page12 <http://www.emfanalysis.com/wp-content/uploads/2014/11/Powell-Bioinitiative-Report-Smart-Meters.pdf>"

The following typos in my Notice of Appeal docketed May 19, 2015 have come to my attention and are in need of correction.

1. Page 4, first line in paragraph #4: the year intended is **2014**.

As an intervenor, I stated last December 12, **2014** not
As an intervenor, I stated last December 12, 1214

E-01345A-13-0069

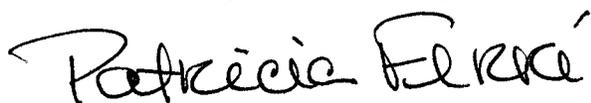

2. Page 4, last paragraph, second line should read without the extra first "is"
"the only way I can see for right relations with customers" not
"the only way I can see is for right relations with customers to return, is"

3. Page 5, at the end of third paragraph: the last sentence should be divided into two sentences as follows:
Thereafter, I was not surprised to learn that the **Tenmar TM-195 meter was not even a professional instrument. It perhaps only measures 1/16 of the ambient microwave exposure.**

4. Page 6, paragraph 2, last line should read "against all the people of Arizona." - not against **the all the** people of Arizona.

Apologize for the inconvenience.

Respectfully Submitted,

Patricia Ferre
