NETWORK
OPERATOR SERVICES

RECEIVED

2015 MAY 27 A 11: 24

AZ CORP COMMISSION
DOCKET CONTROL

This is being filed to complete the compliance requirements of Docket No. T-02679A-92-0190, Decision No. 63906.

Network Operator Services, Inc. was granted a Certificate of Convenience and Necessity to provide competitive resold interexchange telecommunications services and alternative operator services on August 6, 2001. This decision directed Network to certain information within 18 months of the date it first provided service. When Network contacted the Commission in May of 2015 to surrender their Certificate it was discovered that this data had apparently never been filed.

The information provided here is based on the information from other reports filed covering the period in question. At this time, Network has ceased all telecom related activities and is exiting the industry entirely so the information provided is as accurate as we can provide. Note: Network only provided operator services in the state.

As directed by the order:

1. Total revenue for the first twelve months of telecom service provided to Arizona customers by NOS following certification, based on the 2002 Annual Report filed with the Commission: \$759
2. Total operating expenses for the first twelve months of telecom service provided to Arizona customers: \$0
3. Information request not applicable as Network only offered operator services and not local or interexchange telecommunications services.
