Subject: Trico: Docket No. E-01461A-15-0057 [REDACTED]

Arizona Corporation Commission

DOCKETED

MAY 27 2015

ORIGINAL

Dear Commissioner Forese,

Why is APS looking to change their agreement ...Let's be on the level here !!!

DOCKETED BY  
DAB

Why do you, the commission in charge of giving the residents of Arizona yet another power company rate increase feel it necessary to HURT consumers?

For years now, APS has been getting away with killing their basic customer...Me the rate payer! As elected officials, you should feel the need to first listen to the paying customers as we voice our concern over impractical and judge mental calls. It has gone on too long here in Arizona and our country!

Let the rate study be conducted when scheduled and let our voices be heard!

Sincerely,

Nicholas Acciardo

Mr. Tom Forese  
Commissioner  
Arizona Corporation Commission  
1300 West Washington Street  
Phoenix, AZ 85007

Dear Commissioner Forese,

Thank you for your service.

I don't really know if we are experiencing climate change, but I think it would be very prudent to cut back on our activities that could have negative climate impacts.

As you know, under the Renewable Energy Standard and Tariff (REST), Arizona utility companies need to provide incentives for customers who install solar energy technology for their own homes and businesses.

However, I am very concerned that Arizona utility companies, including APS, are very actively trying to avoid this critical statute. Clearly, APS could and should do much more to support solar energy technology and use.

**Accordingly, I urge you to do everything possible, including power company rate rules, to aggressively support Arizona's use of solar power.**

I would be very interested to hear your thoughts on this important matter.

Thank you for your support.

Regards,

Edward Stolbof
