### Nature Of Opinion:

Docket Number: E-01345A-13-0248

Docket Position: Against

I object to APS raising of fees to solar customers. APS does not pay for the installation or equipment of solar voltaic providers, yet profits from the energy produced. Solar electric providers to the grid, provide virtually free electricity to APS that APS then sells to non-solar customers at a profit. Charging Solar providers a fee to be connected to the grid is simply a money grab. There is no justification for raising photovoltaic provider fees other than GREED.
