ELECTRIC

Dear Commissioners,

I just want to state my option concerning the Electric company's thinking they can penalize us for trying to save energy and contributing clean air to the environment by having Solar panels. That is so unfair. We are retired on a fixed income and we are doing our part by conserving on energy (allowing the beautiful sunshine to do it's part) Please do not allow APS or any utility company to raise rates to all Solar consumers. Not only is it unfair, it's ridicules that these huge conglomerate companies charge us for trying to save, by (installing Solar panels Etc.) then come right back and recharge us for doing so. Someone needs to start standing up for the consumer.
