DOCKETED

AUG 25 2015

Subject: APS Rate hikes

Dear Commissioners,

DOCKETED BY

My husband and I are retired and are surviving on a limited fixed income. We installed solar panels to cover our roof 1 year ago. We did this to get control of our utility bills, to help the environment and to use this beautiful Arizona sunshine to its maximum. We also have an electric golf cart. We are dedicated to do our part to help save this planet.

It has always been my understanding that the Arizona Corporation Commission was in place to help protect consumers. Please, for the sake of all that is good and right, do not allow APS or any other power utility to raise rates for solar users. We are doing our part and they should do theirs.

Through the years as our technology has evolved, we've seen that companies have had to make critical changes in the way they do business in order to stay in business. Most companies accept the challenge and retool or evolve in a different direction and become profitable. We have also seen consumers like us evolve. That is what we have done and now we provide electricity to APS! We don't charge them for it - they make a profit from it. For God's sake it is the utility companies that need to get it together and evolve. We consumers are sick and tired of bailing out the rich and powerful.
