This in reference to Docket # W-02514A-14-0343. This is unfair to charge people a higher price for the same amount of water just because they have a larger 1" meter system. This was not disclosed to us, and I would hope that common sense will prevail and we will not have to pay more than our neighbors for our water. If the basic rate remains higher, I would at least hope that you would make the water itself the same price per gallon in the tiers.

Thank you,

Jane & George Norcross
