Support for UNS Electric Energy Efficiency programs, DOCKET NO. E-04204A-14-0178

Dear Chairwoman Bitter Smith and Commissioners:

My name is Kerry Christensen and I am a UNS Electric customer.

Energy efficiency programs help Arizonans reduce their electricity bills through installation of efficient lighting and appliances, more efficient air conditioners, and by repairing leaky ductwork.

I urge you to support adding new cost-effective opportunities to the UNS Electric portfolio, including additional LED lighting measures, and to expand on the success of current energy efficiency programs and policies. These efficiency programs create jobs in Arizona communities and help our economy overall by keeping more of our energy dollars right here in our state. Finally, because they save energy and reduce demand for electricity, these programs help drive down energy costs for everyone, low or moderate income, residential and business customers.

The Arizona Energy Efficiency Standard and these programs have already saved Arizonans in lower utility bills, reduced air pollution, and water savings.

Please work to allow the expansion of cost-effective energy efficiency programs in the UNS Electric service area and approve funding to continue existing programs.

Thank you for your consideration.

Kerry Christensen, 1912 Orca Lane, Bullhead City, AZ 86442
