Nature Of Opinion

Docket Number: E-01575A-15-0127 Docket Position: Against

Dear Utility Division,

All Americans deserve the ability to power their own homes, and get fair credit for the energy they produce. SSVEC has launched an attack on individual choice and property rights by proposing high taxes on homes that produce their own power, and they've launched this attack outside of the proper procedure of a rate case.

SSVEC is trying to ram through a discriminatory solar hearing despite the fact they are planning a rate case in the very near future. Please don't let SSVEC waste customer money and resources. They should review all rates, including solar rates, in a rate case.

In addition SSVEC is attempting to incite hatred among their customers/co-op owners through hateful speech in their newsletters suggesting that the AFFLUENT solar producers are somehow taking advantage of the poor common electricity customer. This type of class warfare should never be started by the management of a cooperative that is supposed to be working for all of their customers, not creating malice among them.

Sincerely,

Nelson Daley

Nature Of Opinion

Docket Number: E-01575A-15-0127 **Docket Position:** Against

Dear Utility Division,

As Arizonan's, we should be leaders in demonstrating the economic and environmental benefits of solar energy, and encouraging the freedom of alternative choices for power. It's unbelievable that SSVEC would want to hijack Arizona's leadership by forcing taxes on solar customers outside of the long established and proper proceeding called a rate case. The only thing that stands in their way is the ACC. I strongly encourage you to throw out barriers that will hinder our ability to power our own homes, and get fair credit for the energy we produce.

SSVEC has launched an attack on individual choice and property rights by proposing high taxes on homes that produce their own power, and they've launched this attack outside of the proper procedure of a rate case. This is UNBELIEVABLE, that in state that prides itself on freedom of choice, SSVEC would want to hinder that choice via economic disincentives.

SSVEC is trying to ram through a discriminatory solar hearing despite the fact they are planning a rate case in the very near future. Please don't let SSVEC waste customer money and resources. They should review all rates, including solar rates, in a rate case.

Sincerely,

Hans Huth
