Nature Of Opinion

Docket Number: E-01575A-15-0127 Docket Position: Against

Dear Utility Division,

All Americans deserve the ability to power their own homes, and get fair credit for the energy they produce. SSVEC has launched an attack on individual choice and property rights by proposing high taxes on homes that produce their own power, and they've launched this attack outside of the proper procedure of a rate case. The action of pushing charges on solar customers, rather than using the process of reviewing all rates, is not in the least "cooperative," nor a fair distribution of power produced by customers.

SSVEC is trying to ram through a discriminatory solar hearing despite the fact they are planning a rate case in the very near future. Please don't let SSVEC waste customer money and resources. They should review all rates, including solar rates, in a rate case.

Sincerely,

Patricia Orlinski
