DOCKETED BY

Subject: Suggestion for solar vote

Rather than give into APS's request to charge an exclusive \$20-\$50 fee to solar customers, how about doing this instead:

1. Have APS charge a consistent flat grid fee to ALL customers connected to the grid. Anyone connected to the grid would pay this regardless of solar use and how much energy is consumed.
2. Gradually phase out net metering credit. A good start would be for utilities paying wholesale instead of retail for the the energy solar customers give back to the grid.
