My Interest: Don't know if I am affected but, doing business with any government entity usually ends up about 50/50, to 70/30, to the side of the government. Governments can never have enough cash and always need more. If any of the said rumors are true citizens will pay a hefty price for the privilege of doing business with the City of Globe, (Cash strapped with a City). Everything is very expensive in today's world and we have no one solution for the many problems that face us as citizens.

If this needs to be put a different way let me know.

Steve
