WATER

I am a user of the Johnson Utilities standpipe. As you know this is not operational and was scheduled for closure tomorrow. I believe that the ACC told Johnson Utilities that this cannot be shut down. The standpipe was vandalized the following day and is still not operational (almost 1 week later). We have 2 children, and many animals that rely of that supply of water. Without that the animals will die and I may be forced to sell the property (if there is any value - who want to buy a property where you have to travel to florence or AJ to get water). I have contacted Johnson Utilities and have not received a call back. I hope you can help, I am not the only resident in the area who is suffering. Regards Martin Bowman
