Nature Of Opinion:

Docket Number: E-01933A-15-0100 Docket Position: Against

I am on Social Security disability. I downsized to a smaller house and prepaid the entire lease to Solar City. I have a 8 year payback period, before I start to save \$ on my initial investment of \$9,000 +. These rate increases, fees, and reductions to what TEP pay solar customers are unjust, and illegal. They are changing the calculus I used to make this large investment, and interfering with private contracts. I am being hurt financially and I see the definite likelihood of a class-action suit. How can individual citizens make major investments in our homes, our largest assets, when the rules of the game keep changing? As a retired Professor of Business, this is bad for jobs and business. It's time the Arizona Corporation Commission and the utility companies recognize what the citizenry of Arizona want for a solar policy, which is not the current strategy of companies like TEP. We want to control our own utility expenses and not be at the mercy of large corporations
