DOCKETED BY [Signature]

Sirs:

This letter is in reply to the August 6, 2015, Verde West Irrigation filed with the Arizona Corporation Commission for an emergency rate increase for repair expenses in the amount of \$16,549.20.

RECEIVED

I want to know how long this "emergency rate of increase" will be in effect? What becomes of all monies paid monthly, even though we do not receive irrigation water through the winter months. The water usually stops mid-October and doesn't come back on until about the last of March. We still make our monthly payments. Where is all these monies going? Shouldn't Verde West Irrigation be expected to meet some of these expenses? Since the pump was out there were no electricity being used.

There are various sized lots between the two subdivisions. How will the amount of assessment be determined? Most of the folks in our area lived on a fixed income and to receive a letter for helping to pay over \$16,000 is shocking to me. We all have "emergency expenses" and try to "plan" for a reserve fund to
