RE: In the matter of the application for UNS Electric, Inc. for approval of its 2015 energy efficiency implementation plan, E-04204A-14-0178

Dear Chairman Bitter Smith and Commissioners,

The Southwest Energy Efficiency Project (SWEEP) would like to thank the Commission for its unanimous support of UNS Electric Inc.'s (UNSE) 2015-2016 Energy Efficiency Implementation Plan and for its approval of amendments to expand program offerings and to facilitate more timely and effective consideration of future demand side management plans.

The approved plan will enable new and improved ways for customers to save money and energy on their utility bills. For example large businesses, small businesses, and schools will see more opportunities to reduce lighting and cooling costs; and enhancements to the Existing Homes and Efficient Products programs will ensure that homeowners and renters have access to more efficient technologies.

Thank you again for your approval of this important plan. All UNSE consumers and businesses benefit when we eliminate energy waste, and we commend you for your leadership.

Sincerely,

Jeff Schlegel and Ellen Zuckerman
Southwest Energy Efficiency Project
