TO: The Arizona Corporation Commission

Subject: I Urge You to Keep APS on track with Energy Efficiency (EE), Docket # E-01345A-15-0095

RECEIVED

2015 NOV 16 A 11: 53

AZ CORP COMMISSION
DOCKET CONTROL

Dear Chairwoman Bitter Smith and AzCC Commissioners:

My name is Paul M Getty, PE and I was an APS customer for years who lived in Scottsdale. Now I am a resident of Fountain hills, served by SRP. No Matter, I am a full time Arizona resident and a Mechanical Engineer who has been committed to Energy Efficiency my entire career of 45 years.

Energy efficiency programs help Arizonans reduce their electricity bills through installation of energy efficient air conditioners, stopping air loss through leaky windows, repairing leaky ductwork, and reducing heat loss from water heaters.

I URGE you to support adding new cost-effective opportunities to the APS portfolio and to expand the success of current energy efficiency programs and policies.

These efficiency programs create local jobs in Arizona communities and help our economy overall by keeping more of our energy dollars right here in our state.

Furthermore, these programs help drive down energy costs for everyone because they save energy and reduce demand for electricity.

The Arizona Energy Efficiency Standard and the current energy efficiency programs offered have already reasonably saved Arizonans hundreds of millions of dollars in lower utility bills, reduced air pollution, and water savings.

Please commit to the expansion of cost-effective energy efficiency (EE) programs in the APS service area and approve funding to continue existing programs.

Thank you for your consideration,

Paul M Getty, PE
