ENERGY EFFICIENCY ADJUSTOR MECHANISM SCHEDULE

Applies to: The Morenci Water and Electric Company Service Area
Greenlee and Graham County, Arizona

MWE's current Energy Efficiency Adjustor Mechanism ("EEAM") was approved in Decision No. 75349 (December 17, 2015). The EEAM applies to all retail service. The EEAM is approved as part of MWE's current Energy Efficiency Implementation Plan ("EEIP") and to meet the requirements and standards as set forth by the Arizona Corporation Commission in the Energy Efficiency Rules approved in Decision No. 71819 (August 10, 2010). All provisions of the customer's current applicable rate schedule will apply in addition to the EEAM.

MWE will evaluate – from time to time – its program portfolio spending requirements. If necessary the EEAM may be changed if it becomes apparent that the funding requirements for MWE's EEIP have changed in order to meet the standard in future years. The Commission must approve any changes to the EEAM. Any change to the EEAM amounts will be applied in billing cycle beginning in the month following Commission approval and will not be prorated.

Energy Efficiency Adjustor Mechanism charges will be the following:

- A rate of \$0.00 per kWh will be charged to all MWE residential and non-mining non-residential customers.
- Customers with monthly demand in excess of 3 MW will be charged a set amount of \$0.00 per month each.

The EEAM will be shown as a separate item on customer bills. MWE's EEIP offers programs for non-mining customers to improve energy efficiency and could possibly result in savings for customers. MWE is required under the rules to file a new plan for approval every other year. For more information please contact MWE's office or the Arizona Corporation Commission at www.azcc.gov.

Effective: December 17, 2015
