RE: Arizona Public Service Company's 2016 Demand Side Management
Implementation Plan. Docket No. E-01345A-15-0182:
Notice of Reduction to Measure Incentive Levels

Pursuant to Commission Decision No. 74406:

Arizona Public Service Company may, upon providing
30-day advance notice to the Commission, reduce
incentive levels in order to more effectively manage
program spending or respond to market conditions.

Arizona Public Service Company (APS) provides this 30-day notice that it intends to
reduce incentive levels for Home Performance with ENERGY STAR® audits effective
February 1, 2016.

Changes to Measure Incentive Levels

Measure	Current Incentive	Revised Incentive
Residential Existing Home Program		
Home Performance with ENERGY STAR Audits	\$200	\$100 for audit, additional \$100 only if audit leads to the implementation of a qualified measure.

Home Performance with ENERGY STAR Audits (HPwES)

The HPwES incentive to the contractor is being reduced and reallocated from \$200 for audits to \$100 for audits, with the remaining \$100 to be paid only if the audit leads to the implementation of a qualified measure such as duct repair or insulation. This change is necessary to reduce the cost of the measure while improving the conversion rate from audits to energy savings measures.

If you have any questions regarding this change to a measure incentive level, please contact me at (602)250-3341.

Sincerely,
