Nature Of Opinion

Docket Position: Against

The Docket No Trico sent me is not available on the drop list E-00000J-14-0023. I was informed Trico is trying to submit a proposal to change the way solar power energy and payout is done. We have just recently signed a contract with Solar City to have solar panels installed on our house. We did this because it's more cost effective and it provided for clean energy. I am writing as a current Trico customer to express my absolute vote against allowing the tariff they propose which would back date to February 2015. Trico has a monopoly on electricity in my area and its unfair that they change the way they buy and sell solar power that an individual makes. Please do not allow Trico to backdate any tariff and my wish is that the contract between Trico and it's customers for the purchase of their energy for solar power they create from panels remains as is.
