Subject: Please Support Keeping TEP on track with energy efficiency
Docket No. E-01933A-15-0178

RECEIVED

Dear Acting Chairman Little and Commissioners:

2016 JAN 29 P 4: 25

My name is Cynthia Duncan and I am a TEP customer.

AZ CORP COMMISSION
DOCKET CONTROL

Energy efficiency programs help Arizonans reduce our electricity bills through installation of efficient lighting and appliances, more efficient air conditioners, and by repairing leaky ductwork.

I urge you to support adding new cost-effective opportunities to the TEP portfolio and to expand on the success of current energy efficiency programs and policies. These efficiency programs create jobs in Arizona communities and help our economy overall by keeping more of our energy dollars right here in our state. Finally, because they save energy and reduce demand for electricity, these programs help drive down energy costs for everyone.

The Arizona Energy Efficiency Standard and these programs have already saved Arizonans hundreds of millions of dollars in lower utility bills, reduced air pollution, and water savings. *I just moved into a house with solar panels and I love it. But this winter I had to switch to the gas furnace and boy was that a shock. Thank goodness for the No Cost Duct Sealing offered by TEP. TEP's a great company in the community of Tucson. Thank you for your continued support!* I would like to see more program offerings to help me and other TEP customers to further reduce our energy use.

Please work to allow the expansion of cost-effective energy efficiency programs in the TEP service area and approve funding to continue existing programs.

Thank you for your consideration,

Cynthia Duncan
