INTERVENTION

RE: MOTION TO INTERVENE IN THE MATTER OF THE
COMMISSION'S INVESTIGATION OF VALUE AND COST OF
DISTRIBUTED GENERATION.

I wish to intervene in the matter mentioned above.

I am a residential electromagnetic hypersensitive (EHS) APS solar customer and therefore have an interest in policies and rates being proposed.

On behalf of solar customers and our living environment, I am particularly concerned APS metering policies negatively affect our environment. I look forward to the day when APS will come into compliance with the following Arizona statutes:

- A.R.S. 40-361.B
- A.R.S. 40-334.Discrimination between persons, localities or classes of service as to rates, charges, service or facilities prohibited.

I expressed similar concerns in dockets E-01345A-13-0069 and E-00000C-11-0328, where I am an intervener.

I hereby certify that a copy of this Motion to Intervene is being mailed to the entire service list for Docket E-00000J-14-0023 on the same day as thirteen copies of this document.

Sincerely,

Patricia Ferre
