6.24 CUSTOMIZED LOCAL AREA SIGNALING SERVICE (CLASS) (Continued)

6.24.1 (Continued)

- i) **Call Waiting/Caller ID** provides a visual display of the incoming caller's name or number when Call Waiting is activated on the subscriber's line. This service, therefore, combines and enhances Calling Name Delivery, Calling Number Delivery and Call Waiting. A subscriber who is engaged in a conversation and receives an incoming call hears a special call waiting tone and is provided a visual display of the call waiting party's number and/or name. The subscriber must have a Call Waiting Display Terminal capable of alphanumeric display and subscribe to Call Waiting, as well as Calling Name and/or Call Number Delivery.
- j) **Selective Call Rejection** allows a customer to reject call attempts from up to 15 telephone numbers. To use this service, the customer preprograms telephone numbers of calling parties they wish to reject. Any call attempts to the customer's telephone from these specified numbers will be prevented from being completed to that customer. The calling party will get a recording advising the caller that the called party is not receiving calls. The customer can also add an "unknown" caller to the Selective Call Rejection list by activating the feature immediately after receiving an unwanted call. Selective Call Rejection is activated by dialing "\*60" for "1160" form a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement.
- k) **Selective Call Forward** allows a customer to program up to 15 telephone numbers to be forwarded automatically to another telephone number. Incoming calls that are on the Selective Call Forwarding list will be forwarded to the predetermined telephone number. Selective Call Forwarding is accessed by dialing "\*63" or "1163" from a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement. Entries on the Selective Call Forwarding list, as well as the forward-to telephone number, can be changed at any time.
- l) **Selective Call Acceptance** allows a customer to select specific telephone numbers from which calls are to be received. All other calls are intercepted and routed to a recorded announcement that informs the caller that the customer is not accepting calls. Selective Call Acceptance is accessed by dialing "\*64" or "1164" on a rotary telephone.
