**RE: Navajo Communications Company, Inc. d/b/a Frontier Navajo  
Communications Company T-02115A - Customized Local Area Signaling  
Service (CLASS)**

T-02115A-15-0413

Dear Corporation Commissioners and Staff:

Enclosed please find the original and thirteen copies of the tariff filing Navajo Communications Company, Inc. d/b/a Frontier Navajo Communications Company, for review and approval.

The purpose of this filing is to correct the Customized Local Area Signaling Service (CLASS) feature description for Selective Call Forward and Selective Call Acceptance.

It is respectfully requested that this filing become effective on January 16, 2016.

An additional copy of this filing is also enclosed. Please stamp this copy received and return it in the enclosed stamped, self-addressed envelope.

Please return approved stamped tariff sheets to:

Frontier Communications  
Linda Saldaña  
9260 E. Stockton Blvd.  
Elk Grove, CA 95624

Please direct any questions or notifications of action taken on this filing to Kirk Lee at (425) 261-5855 or [Kirk.Lee@ftr.com](mailto:Kirk.Lee@ftr.com).

Sincerely,

Kirk Lee  
Manager, Government & External Affairs

DOCKETED BY

**CUSTOMIZED LOCAL AREA SIGNALING SERVICE (CLASS)**

I. GENERAL (Continued)

J. Selective Call Acceptance

Allows a customer to select specific telephone numbers from which calls are to be received. All other calls are intercepted and routed to a recorded announcement that informs the caller that the customer is not accepting calls. Selective Call Acceptance is accessed by dialing "\*64" or "1164" on a rotary telephone.

(T)  
|  
(T)

K. Selective Call Rejection

Allows a customer to reject call attempts from up to 15 telephone numbers. To use this service, the customer preprograms telephone numbers of calling parties they wish to reject. Any call attempts to the customer's telephone from these specified numbers will be prevented from being completed to that customer. The calling party will get a recording advising the caller that the called party is not receiving calls. The customer can also add an "unknown" caller to the Selective Call Rejection list by activating the feature immediately after receiving an unwanted call. Selective Call Rejection is activated by dialing "\*60" for "1160" form a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement.

L. Priority Call

Is an incoming call management feature which will allow the subscriber to define a list of calling directory numbers that will provide the subscriber with special incoming call treatment. Any incoming calls on this list will be indicated by a distinctive ringing. Any numbers which are not on the list or which cannot be identified will be given standard treatment. To gain access to this service, the customer dials "\*61" or "1161" on a rotary telephone.

CUSTOMIZED LOCAL AREA SIGNALING SERVICE (CLASS)

I. GENERAL (Continued)

M. Selective Call Forward

Allows a customer to program up to 15 telephone numbers to be forwarded automatically to another telephone number. Incoming calls that are on the Selective Call Forwarding list will be forwarded to the predetermined telephone number. Selective Call Forwarding is accessed by dialing "\*63" or "1163" from a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement. Entries on the Selective Call Forwarding list, as well as the forward-to telephone number, can be changed at any time.

(T)  
|  
(T)

N. Multiple Simultaneous Call Forward

This feature provides a business customer with the capability to specify the number of calling paths that will be forwarded from one subscriber line to another telephone number. The feature is offered where facilities permit and at no time will this service take precedent over the requirement for these facilities to provide a customer with telephone service. Multiple Simultaneous Call Forward is restricted to voice use only. The feature is available only as an enhancement to one or more of the following features: Call Forwarding, Call Forwarding Busy and Call Forward No answer. Multiple Simultaneous Call Forward is limited to ten (10) call forwarding paths per telephone number. It can be used with any of the following services: B1, PBX, Centrex and ISDN BRI.
